

Sub: An appeal for financial support to complete our state of the art 350-bed multispeciality hospital

Respected Sir,

I trust this finds you in good health.

We have been involved in activities on a humanitarian basis for the last 25 years.

We have now initiated the implementation of a New modern state-of-the-art 350 Bed multispeciality & super speciality hospital with 15 full-time departments like Gynecology, Pediatrics, Ophthalmology, Orthopedic, Surgical, Heart & Medical, Dentistry (Running 7 departments) UROLOGY, NEUROLOGY, CARDIAC CARE, CANCER CARE, DIALYSIS, PHYSIOTHERAPY & BLOOD BANK (Want to add 8 new department) Totally 15 department for treatment & surgery and 2 department for diagnostic purpose like PATHOLOGY & RADIOLOGY So that we can extend full benefit to our poor and needy patients on dialy basis in new hospital building and extend benefit to poor underprivileged people of this area.

Our persistence in humanitarian services for the last 25 years in the remote tribal, poor belt where government agencies can not provide good quality health services.

The Hospital is committed to providing treatment & and surgery free of cost OR at a very low and nominal cost to patients coming from extremely deprived and weaker economic and social strata.

Presently around 300 to 400 patients are being treated every day. When we provide the latest medical, surgical and diagnostic facilities, the figure can easily reach 900 to 1000 patients a day. This new hospital will bless patients in the surrounding 100 km area. Out of the planned capital outlay of Rs. 75 crore, we have been bestowed with commitments for Rs. 45 crore. We are in constant dialogues with several of the present and new potential donors to extend their generous help to meet this gap in the funds.

Thanks and regards
